Brittany Jorgensen, P.Eng.  
Exploitation Engineer  
Canadian Natural Resources Limited  
2500, 855 – 2<sup>nd</sup> St SW  
Calgary, AB T2P 4J8

Dear Ms. Jorgensen:

**RE: PRESSURE MAINTENANCE WATERFLOOD CANCELLATION  
WILDMINT FIELD – HALFWAY ‘A’ POOL – CNRL UNIT # 1**

The Commission is presently reviewing and amending waterflood approvals to conform to current requirements. The waterflood project in the Wildmint field, Halfway ‘A’ pool, approved on November 8<sup>th</sup>, 1965, has been reviewed by Commission staff. Table 1 lists the completed wells in the subject project. Commission records for the project indicate that water injection ceased in June 2019. On August 25<sup>th</sup>, 2020, Canadian Natural Resources Limited indicated to the Commission via email that there are no plans to restart injection operations and concurred that cancellation of the approval is appropriate.

The pressure maintenance waterflood project approval granted on November 8<sup>th</sup>, 1965 for the Wildmint field, Halfway ‘A’ pool, is hereby cancelled, under the authority of OGAA section 75(2)(b)(iii) as the designation is spent.

This cancellation does not affect the approval, Order 19-02-012, for non-hazardous waste disposal in the well CNRL et al Wildmint d-45-A/94-H-2 WA 810, in the subject pool.

Please contact Logan Gray at (250) 419-4465 or the undersigned at (250) 419-4430 should you have any questions.

---

Ron Stefik, EngL  
Supervisor, Reservoir Engineering  
Oil and Gas Commission
