Dear Sir:

Re: Application for Concurrent Production
Ladd Rigel East 8-22-87-17 W6M
Rigel - Dunlevy 'A'

*(DOA issued 841122)
Monsanto Project (4)
(old scheme never named)*

This acknowledges receipt of your application dated 1985 02 13 requesting concurrent production approval for Section 22-87-17 W6.

A concurrent production scheme is already in operation in the Rigel Dunlevy 'A' pool. In view of this and the interpretation that the oil well, Ladd Rigel East 8-22-87-17 W6, is producing from the same pool, we wish to advise that your application for concurrent production is hereby approved subject to the following conditions:

1. The area of concurrent production is Section 22-87-17 W6.
2. The oil allowable for the well in the oil spacing area is $13.9 \text{ m}^3/\text{d}$.
3. Gas production from the area will be limited to $15.4 \times 10^3 \text{ m}^3/\text{d}$.
4. Gas production will be conserved.
5. This approval could be modified at a later date if deemed appropriate through a change in circumstances.

Yours truly,

K.J. Hindmarch
Director, Engineering and Operations
