Attention: Mr. Wm. B. Frasson, P. Eng.

Dear Sir:

Re: Application for Concurrent Production  
Remington et al N Pine 14-13-85-18W6  
North Pine - North Pine 'B'

This acknowledges receipt of your application dated  
1986 09 29 requesting concurrent production approval for  
the subject well.

A concurrent production scheme under Good Engineering  
Practice for Section 13-85-18W6 was granted to Kildonan  
Oil Limited on 1978 12 05. As the Remington et al N Pine  
14-13-85-18W6 oil well is located within this area, your  
application to join the existing scheme is approved.  
Accordingly, conditions 2 and 3 of the Branch approval  
of 1978 12 05 are hereby modified to read as follows:

2. Daily oil allowable restrictions are removed.
3. The daily gas allowable for the area is  $60.0 \times 10^3 \text{ m}^3/\text{d}$ ,  
however, gas production from the well 14-13 is  
limited to  $14.1 \times 10^3 \text{ m}^3/\text{d}$ .

Yours truly,

K. J. Hindmarch  
Director, Engineering and Operations
