

Application Management System Training New Business Identifiers

The Application Management System (AMS) is the BC Oil and Gas Commission's new online portal for the submission and payment of oil and gas permit applications. Here are some of the new business identifiers that apply in the new system:

Term	Definition
Application Number	This is a new system-generated nine digit number assigned to the application for all activities and land being applied for within an application. Shown with the abbreviation AA#. This replaces both the legacy OGC File Number and the KERMIT SRA application number.
Application Determination Number	Upon decision, all activities permissioned will be referenced under an Application Determination Number. Shown with abbreviation AD#. For a new application including new activities submitted via AMS, the AD# will be the same as the AA#.
Activity Identifiers	<p>The system generated number assigned to the individual oil and gas activities and related activities within an application as defined in OGAA. The activity indicators for oil and gas activities are:</p> <ul style="list-style-type: none"> • Well Authorization - shown with an abbreviation: WA# • Facility - shown with an abbreviation: FAC ID# • Geophysical Program - shown with abbreviation: GEO# • Pipeline Project - shown with abbreviation: PROJ# • Road - shown with abbreviation: ROAD# <p>The activity identifiers for related activities are:</p> <ul style="list-style-type: none"> • Short Term Water Use - shown with abbreviation: STWU# • Changes In and About a Stream - shown with abbreviation: CIAS# • Associated Oil and Gas Activities - shown with abbreviation: AOGA# • Ancillary - shown with abbreviation: ANC#
Segment Number	Road and pipeline segments are assigned an additional identification to each segment. This is the pipeline or road segment number.
