

# eSubmission Updates: Release Feb. 24, 2017

Changes to eSubmission on Feb. 24, 2017 include the following:

<b>General</b>	<b>Describes general changes made to eSubmission</b>
<a href="#">OGCCI-365</a>	Search criteria and search results are now retained when a user navigates away from a search.
<a href="#">OGCCI-366</a>	The zoom extent in the map viewer has been increased in order to display smaller areas with greater detail.
<a href="#">OGCCI-367</a>	Spatial files submitted as part of Post Construction Plan, Preliminary SRW Survey Plan, Waste Disposal and Geophysical Final Plan submissions can now be downloaded.
<a href="#">OGCCI-371</a>	Users are now notified when a session is about to expire and when a session expires.
<a href="#">OGCCI-372</a>	The 'Enter' key now executes searches.
<b>Drilling</b>	<b>Describes changes made to the Drilling section</b>
<b>Drilling Status</b>	
<a href="#">OGCCI-360</a>	When spudding a well, an individual responsible for the preparation of the report must now be entered.
<b>Summary Report of Drilling Operations (SRDO)</b>	
<a href="#">OGCCI-357</a>	SRDOs are now due 4 business days from a reported drilling activity.
<a href="#">OGCCI-358</a>	Users can now add a Conductor Casing Run Date prior to the Spud Date for a well.
<a href="#">OGCCI-359</a>	Changes to SRDO include the addition of Stage Collar, Anchor/Isolation Packer and Connection Type fields to the existing Casing / Cement section, addition of a new OGC Comments section, and the removal of the existing Tops section.
<a href="#">OGCCI-361</a>	The ability to manually add formation tops in a SRDO has been removed.
<b>Wells</b>	<b>Describes changes made to the Data Submission section</b>
<a href="#">OGCCI-354</a>	The error message displayed to users when uploading a file with an incorrect naming convention has been simplified.
<a href="#">OGCCI-355</a>	Bottom holes flagged as no drilling to occur are no longer available for selection.
<a href="#">OGCCI-356</a>	Users can now select drilled bottom hole locations when uploading well logs.
<a href="#">OGCCI-363</a>	Submitted injection and disposal values can now be corrected for up to 6 months after submission.
<a href="#">OGCCI-377</a>	GRD – Static Pressure Test .PAS files now allow for a pressure correction value of '0' if the recorder is at or close to the Mid-Point of Perforation.
<a href="#">OGCCI-378</a>	TRG – Transient Pressure and Deliverability Test .PAS files now allow for a negative Final Rate Prior to Shut-In if the pressure test type is Fall Off (Bottom Hole or AWS).
<a href="#">OGCCI-381</a>	Hydraulic Fracturing submissions are now only required for one formation where many are listed in a Notice of Operation requiring hydraulic fracturing.
<b>Waste Disposal</b>	<b>Describes changes made to the Waste Disposal section</b>
<a href="#">OGCCI-352</a>	Pipelines can now be associated to pits.
<a href="#">OGCCI-353</a>	Pipelines can now be associated to disposals where the disposal type is Landfill From Tank.
<b>Geophysical Program</b>	<b>Describes changes made to the Geophysical Program section</b>
<a href="#">OGCCI-368</a>	Geophysical Final Plans can now only be submitted for programs approved since OGAA implementation in order to align with regulatory requirement for these submissions.
<a href="#">OGCCI-370</a>	Permitted geophysical program spatial data is now available to download.
<b>Permit Administration</b>	<b>Describes changes made to the Permit Administration section</b>
<a href="#">OGCCI-376</a>	Changes In and About a Stream can now be submitted in Post Construction Plan submissions. Permitted Changes In and About a Stream spatial data can also be downloaded in preparation for submitting Post Construction Plans.
<b>Water Use</b>	<b>Describes changes made to the Water Use section</b>
<a href="#">OGCCI-364</a>	Outstanding withdrawal volume submissions are now displayed for each month where they are due.
<a href="#">OGCCI-373</a>	Only outstanding withdrawal volume submissions from 2016 onwards are now displayed as due.
<a href="#">OGCCI-374</a>	Users can now search for Water Use approvals by Legacy OGC File #.
