Greg Dickie Manager Environment and Regulatory CCS Energy Services 2400, 530 - 8 Avenue SW Calgary, AB T2P 3S8

Dear Mr. Dickie:

RE: EXTENDED WATER INJECTIVITY TEST
CCS Silverberry 16-7-88-20 W6M (WA# 15311); HALFWAY FORMATION

The Commission has reviewed your application dated June 18, 2003 requesting permission to conduct a second water injectivity test for up to 30 days into the Halfway formation of the subject well.

Your request for temporary injectivity is considered appropriate, as it will provide necessary information to determine the well's capability during the start-up and commissioning of your disposal facility.

Approval for temporary injectivity test is hereby granted under Part 8, Division 3, Section 94 of the *Drilling and Production Regulation*, subject to the following conditions;

- 1. The test injection interval must be in the Halfway (1515.0 1519.0 mKB).
- 2. The total volume of injected water must not exceed 1,000 m³.
- 3. The disposal/injection pressure at the sandface must not exceed the formation fracture pressure.

Please note that a notice of your application for salt water/non-special waste disposal will be published in the June 19 and 26, 2003 issues of the BC Gazette. Formal approval may be granted only if no valid objections are received by the closing date of July 10, 2003.
