Attention: Mr. D. G. Campbell, P. Eng.

Dear Sir:

Re: Produced Water Disposal Application
Amerada Pac Wilder 11-17-83-19

This refers to your application of 1981 04 30 concerning the disposal of produced water from Wilder Halfway gas pool into the Halfway formation in the well Amerada Pac Wilder 11-17-83-19. Notice of your application was published in the British Columbia Gazette of May 28 and June 4, 1981.

In view of an objection received from Baay Land Consultants Ltd., we requested you to consider alternative possibilities of disposal of salt water from the Wilder field. However, we concur with your conclusions as outlined in your letter of 1981 06 23, that the Halfway formation in 11-17 is the most viable water disposal zone. Consequently, your application is hereby approved. This approval may be modified or rescinded at any time.

Yours truly,

D. W. Durie
 Assistant Deputy Minister
