1300, 700 – 9th Avenue S.W.
Calgary, AB T2P 3V4

Dear Mr. Lipiec,

**RE: PRODUCED WATER DISPOSAL SPECIAL PROJECT APPROVAL
PRESSURE TESTING EXEMPTION; 2018 ANNUAL RESERVOIR PRESSURE TEST
ECOG TATTOO c-35-E/94-O-10; WA# 26180
DEBOLT FORMATION**

BC Oil and Gas Commission (Commission) staff have reviewed your application, dated November 15, 2018, requesting exemption of the requirement for a 2018 reservoir pressure test for ECOG Tattoo c-35-E/94-O-10 (WA 26180).

The commission concurs the results of the 2017 October static gradient test, the small disposal volumes injected in 2018 and the extended shut-in time between November and April support an exemption from the requirement to conduct a reservoir pressure test in 2018. The annual reservoir pressure requirement outlined in condition 2h) of Order 10-02-005, Amendment #1, is hereby waived for the 2018 calendar year.

Should any reservoir pressure tests be conducted on this well, a copy of the results along with any analysis must still be submitted as per section 73(3) and 73(4) of the Drilling and Production Regulation.

Should you have any questions, please contact Kathryn Archibald at (250) 419-4406 or the undersigned at (250) 419-4430.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ron Stefik', is written over a horizontal line.

Ron Stefik, Eng.L.
Supervisor, Reservoir Engineering
Oil and Gas Commission
