The well was later completed into the Coplin 'A' pool in 1968 and the Nikinassin and Cadomin formations in 1997 for gas production. The well was approved for salt water disposal into the Cadomin formation on July 13th, 1999 and the well was reentered and recompleted into the Nikinassin and Cadomin formations in August of 1999. On November 7th, 2019, Canadian Natural Resources Ltd. indicated having no plans for reactivation of this well and concurred that cancellation of the disposal approval is appropriate.
