The subject well was drilled in 1993 and completed in the Baldonnel 'A' pool in 1994 as a gas well. In February 2000, the well was completed in the Gething formation and approval for salt water disposal into the Gething formation was granted on June 5th, 2000, however no disposal operations have occurred. On November 7th, 2019, Canadian Natural Resources Ltd. indicated having no plans for reactivation of this well and concurred that cancellation of the disposal approval is appropriate.
