Calgary, AB T2P 1M4

Dear Mr. Adams:

**RE: PRESSURE MAINTENANCE WATERFLOOD
SPECIAL PROJECT CANCELLATION
BUBBLES NORTH FIELD – COPLIN 'A' – BG CANADA PROJECT**

The waterflood project in the Bubbles North field, Coplin 'A' pool, BG Canada Project, was approved on January 23, 2003. Commission records for the project indicate that water injection ceased in September 2012 and production ceased in May 2016. On December 12, 2019, the Commission notified PETRONAS Energy Canada Ltd. of our intention to cancel the special project approval unless a valid reason for continuing the project was received by January 31, 2020. No request for continuation of the project has been received by the Commission.

Pursuant to the *Oil and Gas Activities Act (OGAA)* section 75(2)(b), the Commission may cancel, suspend or amend a designation (iii) if the Commission considers that the designation is spent, or (iv) if the Commission considers that the designation is no longer appropriate, including, without limitation, for reasons of (a) public safety, (b) protection of the environment, or (c) conservation of petroleum and natural gas resources.

The Special Project Approval for the Bubbles North, Coplin 'A' pool, BG Canada Project, is hereby cancelled under section 75(2)(b)(iii) of *OGAA*; the Commission considers that the designation is spent.

Please contact Kathryn Archibald at (250) 419-4406 or the undersigned at (250) 419-4430 should you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Ron Stefik', written over a horizontal line.

Ron Stefik, EngL
Supervisor, Reservoir Engineering
Oil and Gas Commission
