Dear Michael Reinhart:

**RE: PRESSURE MAINTENANCE WATERFLOOD CANCELLATION
SQUIRREL FIELD – NORTH PINE ‘C’ POOL – ENCAL PROJECT**

The Commission is presently reviewing and amending waterflood approvals to conform to current requirements. The waterflood project in the Squirrel field, North Pine ‘C’ Pool, approved on March 14th, 2001, has been reviewed by Commission staff. Commission records for the project indicate that water injected ceased in October 2009. All wells in the subject project have been either zonally abandoned or surface abandoned. On March 19th, 2020, Cona Resources Ltd. indicated to the Commission via email that they had no plans to restart injection operations and concurred that cancellation of the approval is appropriate.

The pressure maintenance waterflood project approval # 01-09-001 for the Squirrel field, North Pine ‘C’ Pool, is hereby cancelled.

Please contact Logan Gray at (250) 419-4465 or the undersigned at (250) 419-4430 should you have any questions.

Sincerely,

Ron Stefik, EngL
