Included inventory

The following wells are located on the same lease/pad:

WA number	Well name	Surface location	Tenure number

Note: Sharing a common NTS/DLS location is not a pre-requisite for a shared surface lease.
The Commission will review notifications for accuracy.

A lease is defined as a designated area of land with an associated lease, easement, right of way or other agreement with the land owner authorizing the entry, occupation or use of the land for the purpose of carrying out an oil and gas related activity or to comply with an order from the Commission.
