

December 15, 1975

Shenandoah Oil Corporation,
302, 409 - 8th Avenue, S.W.,
Calgary, Alberta. T2P 1E3

Attention: Mr. B.A. Quamme, C.E.T.,
District Production Superintendent.

Dear Sirs,

Re: Water Disposal from wells SOC et al Fireweed
b-4-H/94-A-13 and SOC et al Inga d-55-B/
94-A-13 into Great Basins et al W Blueberry
d-19-L/94-A-12 disposal well.

Your written application of November 5, 1975 has been reviewed and, since you have obtained the agreement of Great Basins Petroleum Ltd. to the disposal of this water into their well subject to appropriate treatment and filtering, the Branch has no objection to your proposal (verbal agreement given November 3, 1975 via field office).

In view of the variation in the iron levels in the two samples from the b-4-H well, we suggest that further samples be taken periodically to ensure appropriate treatment is maintained.

Yours truly,

B.T. Barber,
Senior Reservoir Engineer.

BTB"bb

c.c. Mr. D.L. Johnson,
Great Basins Petroleum Ltd.
