Dear Mr. Douglas:

**RE: GOOD ENGINEERING PRACTICE APPROVAL, AMENDMENT #1
HERITAGE FIELD – MONTNEY “A” POOL**

Commission staff have reviewed the application, dated January 20, 2009, prepared by Fekete Associates Inc. on behalf of Huron Energy Corporation, requesting amendment to a Good Engineering Practice (GEP) scheme approval granted for producing gas from the regional Heritage field Montney “A” pool.

Attached is Approval 08-06-031 (Huron Project #1) Amendment #1, granted under Part 8, Division 6, Section 101 of the *Drilling and Production Regulation*. Gas target buffer distances have been reduced to 150 meters to the north, west and south boundaries of Section 22-80-18W6M, based on documentation of consent from off-setting rights owners, to allow the drilling and production of gas wells within the GEP area for maximization of gas recovery.

Should you have any questions, please contact Ron Stefik at (250) 952-0310.
