Dear Sir:

Re: Buick Creek North d-55-F/94-A-14

This will confirm that Mr. A. J. Dingley advised me prior to his departure, that, on July 2, 1975, he gave you verbal permission to commingle gas production from the Bluesky and Dunlevy formations downhole for a test period of two months.

When this test is completed, segregation should be re-established and the test results should be forwarded to this office together with any comments you may have.

Yours truly,

B. T. Barber,
Senior Reservoir Engineer.
