Dear Mr. Kostuik:

**RE: APPLICATION FOR COMMINGLED PRODUCTION
NUMAC PICKELL d-71-A/94-H-6; WA# 9578**

ZAREMBA

The Ministry has reviewed your application dated January 21 and amended February 19, 1998, requesting permission to commingle gas production from the Gething "B" and Baldonnel "B" pools encountered by the subject well. An interim verbal approval was given by this Branch on February 19, 1998.

Reservoir pressure and fluid composition are similar for these two single well pools. We wish to advise you that your application to commingle production from these two formations is hereby approved, under the authority of Section 44 of the *Drilling and Production Regulation*, subject to the following conditions:

1. Production from the Gething B (1139.0 - 1144.0 mKB) and Baldonnel B (1148.5 - 1162.0 mKB) pools may be commingled.
2. Gas, condensate and water production should be allocated on the BC S-1 and BC S-2 forms on the basis of Gething 50% and Baldonnel 50%.
3. This approval may be modified at a later date if deemed appropriate through a change in circumstances.

Sincerely,

B. van Oort, P. Eng.
Director
Engineering and Operations Branch
