Attention: Mr. A.D. Rogan

Dear Sir:

Re: Application to Commingle Slave
Point and Pine Point Gas,
a-74-H/94-I-13 (WA#887)

In response to your recent request, approval is granted for the subject well to be completed in both Slave Point and Pine Point zones without segregation in the wellbore. This approval may be modified if further drilling in the area indicates the presence of a gas reservoir, in the Slave Point, extending beyond the spacing area of a-74-H.

Please note that the 'Application to Alter a Well' and 'Workover Report' forms for any recompletion work should be forwarded to our Development Engineering Section at the appropriate time.

Yours truly,

A. J. Dingley
Senior Reservoir Engineer
